

Product Name	Powder Humic Acid
Category	Humic & Fulvic Acid
Form	Powder
Product Type	Soil & Plant Conditioner
Supplier	MANIFESTT GERMANY GMBH

PRODUCT OVERVIEW

A concentrated humic acid powder for soil application - improves structure, fertility, and plant nutrient absorption.

Powder Humic Acid is a concentrated soil and plant conditioner based on natural humic substances. Applied to fields and orchards at the start of vegetative growth, it improves soil structure, enhances nutrient uptake, increases water holding capacity, and supports root development.

GUARANTEED ANALYSIS

Parameter	Specification
Humic Acid (HA)	85% min.
Fulvic Acid (FA)	10%
Potassium (K2O)	6%
Moisture (max.)	5%
pH (1% solution)	9-11

PHYSICAL PROPERTIES

Parameter	Specification
Appearance	Black-brown powder
Solubility	Water soluble

BENEFITS

- Improves soil structure and fertility
- Enhances nutrient uptake
- Promotes root growth
- Increases water holding capacity
- Supports stress tolerance

APPLICATION METHODS

- Crop fields: 2-4 kg/ha at start of vegetative growth
- Orchards: 4-5 kg/ha at start of vegetative growth
- Can be applied through irrigation or as soil incorporation

RECOMMENDED CROPS

- Field crops
- Orchards
- Vegetables
- Greenhouse crops

Powder Humic Acid

- All soil types

PACKAGING & STORAGE

- 1 kg bags
- 25 kg bags
- Custom packing on request

Storage: Store in a dry, clean, dark, well-ventilated place.

Typical specification - subject to product grade and final Certificate of Analysis.
